Prices of Patented Roses

The price of No. 1 grade is as quoted for each individual variety. The price of the No. 1 1/2 grade is twenty per cent less than the No. 1 grade price. The quantity rate of patented varieties is determined by the number of each variety ordered, rather than the total of all varieties. No. 2 grade roses offered only where shown. *Less than 5 of 1 kind of patent roses will be priced at the retail rate less 25%.*

In case of the additional labor that would be involved at our already extremely busy period, our No. 1 1/2 and No. 2 grades cannot be ready for shipment until late December or early January.

All patented roses are grown under license from the various patent holders.
